

Your business plan should include networking to connect with people who can help your business succeed. This will provide resources to bring your plan to life.

# 01 BUSINESS

Make a plan that shows who will play your game, what makes it unique, and how much money you could earn.

Be organized, efficient, and productive to improve your decision-making and execution of business strategies. This will lead to successful implementation of your game development process.

# 02 NETWORKING

Connect with people who can support your career, such as business partners, investors, and mentors.

# 04 PRODUCTIVITY

Learn how to use your time and resources wisely to make better decisions and get things done.

Networking allows you to make priceless connections for pitching your game. Utilize these connections to identify opportunities for pitching your game to the appropriate audience.

# 03 PITCHING

Refine your pitch to effectively communicate your game's value and secure support.

Getting ready for a pitch takes a lot of effort. If you manage your time well and stay focused, your pitch will be impressive, giving you a better chance of making a good impression.
